I. Consideration of Dr. McGann's letter, bringing to notice the condition of Miller's Tank No. 1.

Resolution.—The Commissioners fully concur in the views expressed by Dr. McGann in the said letter that the water of Miller's Tank No. 1 should be strictly preserved from pollution, and that one effectual mode of doing so will be the removal of the villages of Dobbs Pettah and Upparhalli from their present sites.

The Commissioners would at the same time observe that the water of the said tank is almost exclusively used by the residents of the Civil and Military Station. Having regard to this fact they resolve that a copy of Dr. McGann's letter be forwarded to the President of the Municipality, Civil and Military Station, in view to its being ascertained from that officer how far the Station Municipality is prepared to help in carrying out the said object in which they have a special concern.

A. SRINIVASACHARLU,
Vice-President.
